

Standardized Operational Matrix

Confidential LP Business Information  
Effective Date: April 15<sup>th</sup>, 2023

| LIKELIHOOD DESCRIPTION |                                                                       | ANNUAL FREQUENCY      |                                      |
|------------------------|-----------------------------------------------------------------------|-----------------------|--------------------------------------|
| G                      | One or more events expected per year at a given facility              | >=1                   | >=1                                  |
| F                      | Event expected several times in a business unit in a one-year period  | 1 to 1/10             | 10 <sup>-1</sup> to 1                |
| E                      | Event expected several times across Enbridge over a one-year period   | 1/10 to 1/100         | 10 <sup>-1</sup> to 10 <sup>-2</sup> |
| D                      | Isolated prior or expected cases at Enbridge                          | 1/100 to 1/1,000      | 10 <sup>-2</sup> to 10 <sup>-3</sup> |
| C                      | Expected to occur periodically in industry; limited cases at Enbridge | 1/1,000 to 1/10,000   | 10 <sup>-3</sup> to 10 <sup>-4</sup> |
| B                      | Known to have happened once in the industry                           | 1/10,000 to 1/100,000 | 10 <sup>-4</sup> to 10 <sup>-5</sup> |
| A                      | No known prior occurrences in industry; unlikely to occur at Enbridge | < 1/100,000           | < 10 <sup>-5</sup>                   |

| RISK AUTHORITIES                                     |                                              |                                                                                                                  |                                                                                                                        |
|------------------------------------------------------|----------------------------------------------|------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Risk Rating                                          | Risk Owner / Responsibility & Authority      | Recommended Risk Treatment                                                                                       | Recommended Treatment Outcome                                                                                          |
| Very High<br>(Exceeding Risk Limit)                  | IMS Program Sponsor<br>VP Level or above     | Focus on timeliness of effective risk reduction through interim and/or permanent risk treatment(s)               | As approved by the Risk Owner / Authority to mitigate risk to Low or Medium Conditionally Tolerable (ALARP) Risk Level |
| High<br>(Exceeding Risk Limit)                       | IMS Program Owner<br>Director Level or above |                                                                                                                  |                                                                                                                        |
| High Health & Safety<br>Else Medium                  | See High or Medium description               | See High or Medium description                                                                                   | See High or Medium description                                                                                         |
| Medium<br>(Risk Level between Risk Limit and Target) | IMS Program Leader<br>Manager Level or Above | Risk treatment submitted for resource allocation unless conditionally tolerability (ALARP) has been demonstrated | As approved by the Risk Owner / Authority to mitigate risk to Low or Medium Conditionally Tolerable (ALARP)            |
| Low<br>(Risk Level below Risk Target)                | IMS Program Leader<br>Supervisor or Above    | No action or escalation required                                                                                 | No action or escalation required                                                                                       |
