1. Human resources reporting ESRS S1

1.1. The process

The Bouygues group is a diversified international services group. Human resources (HR) reporting indicators are chosen and defined by consensus.

The Human resources reporting committee, under the joint responsibility of Cécile Monthiers and Frédéric Mathevet, is coordinated by Virginie Leprince and Nicolas Pineau. Its members are business segment HR officers for the qualitative (policy, approach, key events, etc.) and quantitative (HR data) aspects of human resources reporting.

Every year, the Human resources reporting committee, which provides a forum for inter-business segment discussion, reviews the areas for reporting (remuneration, health and safety, labour relations, etc.) and maps out the indicators likely to best illustrate them, while respecting the specific features of each business segment at the same time. The committee meets quarterly and, at the end of the reporting period, assesses the data collected with a view to continuous improvement, in terms of process, reliability and the relevance of the indicators. It is also tasked with defining each indicator precisely: scope, computation formula, frequency, deadline, etc. It takes part in preparing this document, which it validates for each business segment.

Its members are:

- Bouygues Construction: **Claudia Carle**
- Bouygues Immobilier: **David Chiret** and **Fathi Meherzi**
- Colas: **Adeline Bonnerat**, **Boris Legois**
- Equans: **Xavier Huyghe**
- TF1: **Jeanne Bernard-Darrieus** and **Carol Bubenik**
- Bouygues Telecom: **Michelle Lecerre** and **Sébastien Charlot**
- Bouygues SA: **Coralie Le Brun**

Committee members exchange information using a space reserved for them in Teams because they are in several different locations.

The consolidation of all the indicators included in the Bouygues human resources reporting campaign is carried out using a single data collection tool. All the HR indicators collected by the Group, whether consolidated or business segment-specific, are stored.

1.2. The human resources reporting timetable

The closing date for HR indicators has been set at 31 December, as this is in line with the date set by the European directive.

For FY 2024, the CSRD reporting timetable is based on the publications requirements of the Bouygues group sustainability report.

The finalised sustainability report must be presented to the Group's Board of Directors each year (in 2025, on 5 March). A timetable has therefore been drawn up with the business segments so that the Group's CSRD (indicators, trend and situation commentaries) can be validated and audited for this deadline.

Based on this deadline, the collection timetable for all the indicators included in the ESRS S1 reporting campaign is as follows:

- **22 July 2024:** collection of contributions from the business segments (qualitative aspect of the project)
- **Up to 20 September 2024:** discussions with BYSA on possible changes to the qualitative aspect (ESRS S1 to S5)
- **16 December 2024:** launch of the ESRS S1 reporting campaign with business segment contributors (quantitative aspect)
- **24 January 2025:** closure of the ESRS S1 reporting campaign
- **27 January 2025 at 12 pm:** consolidation of business segment data and completion of the text and trend commentaries
- **27 to 29 January 2025:** validation of indicators
- **29 January 2025 (provisional):** Sign-off meeting ESRS S1 with Mazars
- **3 February 2025:** delivery of the audited contribution to the Legal Department for final approval

As of the data input date and throughout the validation period, the indicators for the Bouygues human resources reporting campaign are made available to the independent auditor so that they may audit the information.

1.3. Scope

The consolidation scope for the Group's human resources data is the same as the financial consolidation scope.

All employees of an undertaking within this consolidation scope are counted in the calculation of HR indicators, including if they exercise their activity in an undertaking not within the HR reporting scope.

That may be the case, for example, of an expatriate employee who has an employment contract with a consolidated undertaking but works in a joint venture not within the consolidation scope.

For indicators with geographical scope, **the determining factor is the country of work**, regardless of the origin of the contract binding the employee to the undertaking.

For example, an employee with an employment contract under French law working in Asia will be counted in the Asia-Pacific zone.

The geographical scope of France comprises:

- Mainland France,

- French overseas departments: Guadeloupe, French Guiana, Martinique, Mayotte and Reunion Island.
- French overseas authorities: French Polynesia, Saint-Barthélemy, Saint-Martin, Saint Pierre-et-Miquelon, and Wallis and Futuna.

This excludes: Clipperton Island, the French Southern and Antarctic Lands and New Caledonia.

Please note:

An undertaking acquired during the year is included in the scope of some of the indicators at the date of acquisition. At least the following indicators must be completed:

- **Global scope:**

Number of employees, average number of employees, employees by region, employees by country, employees by contract and gender, employees by job category and gender, employees by age range, total number of departures by reason, annual turnover

- **France scope** (only if the acquisition took place in the first half of the year):

Average “Bouygues group” tenure, number of people on work/study contracts at 31 December, number of interns at 31 December, women in senior positions (cadres), senior management by gender; “High-flyer” women managers.

For the Global scope, all the indicators must be provided in future years.

The indicators requiring grading (Women in senior positions, Women managers, “High-flyer” women managers, Gender pay gap by job category) are provided at different dates in accordance with the desired scope, in order to allow sufficient time for the application of this grading.

France scope:

These indicators must be provided:

- in the current year if there is an acquisition in the first half of the current year.
- in the following year if there is an acquisition in the second half of the current year.

Global scope:

These indicators must be provided:

- in the following year if there is an acquisition in the first half of the current year.
- in the year after next if there is an acquisition in the second half of the current year.

1.4. The workforce

1.4.1 “Employee” and “non-employee” workers

According to the CSRD, the workforce is comprised of “employee” and “non-employee” workers.

Employee workers include:

- employees who have an employment contract with the undertaking,
- union workers if employed directly by the undertaking (having signed an employment contract/Job offer letter),
- temporary entertainment workers

Non-employee workers include:

- workers employed by a temporary employment agency (temporary workers),
- union workers made available to the undertaking by a trade union due to their profession (technical/operational fields), their collective agreement (or under the *Commission de la Construction du Québec* (CCQ) in Canada), their parent company (Operating Company) or the duration of the contract (short assignments),
- interns (if considered a non-employee worker under French legislation),
- individual contractors under direct contract with a Group undertaking, or freelancers,
- workers seconded from another EU country.

1.4.2 Registered workforce

This category only includes employees.

We consider the following to be part of the registered workforce:

- **All persons bound by an employment contract**, legally recognised in the country where it was signed, with an undertaking included in the consolidation scope; or
- in the absence of legal provisions governing employment contracts in the country, **all persons who commit to work for an undertaking included in the consolidation scope, in exchange for remuneration**, provided there is no business contract.

This definition applies to all geographies (France, Outside France, Global).

For example, the following are included:

- **Persons who have entered into an employment contract, whether or not the end date is specified in the contract** (non-permanent contract, worksite project contract, permanent contract, professional training contract, etc.).
- **Persons on part-time employment contracts.**

For example, the following cases are not included:

- **Individuals providing commercial services** in one of the companies within the scope. This applies to subcontractors and temporary workers.
- **Interns** working in one of the companies within the France scope (e.g. interns under three-way agreements are not included).

1.4.3 Active workforce

This category only includes registered employees.

Employees who no longer receive remuneration from the undertaking are excluded from the active workforce.

For example, employees whose employment contract is suspended for the following reasons are excluded:

- Sabbatical leave
- Business creation leave
- Parental leave
- Training leave
- Career change leave
- Long-term illness leave

Please note:

- Expatriates outside France managed by companies such as MAINBY, DCW Hong Kong, etc., are counted in these entities and not in their host entities.

1.4.4 Type of contract

There are three types of contract in the CSRD human resources reporting: “permanent employee contracts”, “temporary employee contracts” and “non-guaranteed hours employee contracts”.

The following are considered to be **permanent employee contracts**:

- permanent contracts (France),
- worksite project contracts (France),
- permanent professional training contracts (France),
- long-term contracts (Outside France)

The following are considered to be **non-permanent employee contracts**:

- fixed-term contracts (France),
- apprenticeship contracts (France),
- fixed-term professional training contracts (France),
- fixed-term contracts (Outside France),
- seasonal contracts (Outside France),
- limited-term contracts (LATAM)

The following are considered **non-guaranteed hours employee contracts**:

- zero hours contracts (Outside France),
- on-call employee contracts (Outside France),
- casual employee contracts (Outside France)

1.4.5 Job categories

France scope:

- Cadre (senior position): An employee whose socio-professional category is either senior or engineer.
- ETAM: An employee whose socio-professional category is *ETAM* (Clerical, technical & supervisor employees).
- Compagnon: An employee whose socio-professional category is “site worker”.

Outside France scope:

- Worker: An employee with Worker job category. Example: Site worker.
- Staff: All other non-France employees who do not have worker job category (e.g. supervisors and technicians).

1.5. Indicators

The human resources indicators are presented below according to the following layout:

1.5.1 Workforce and movements

1.5.1.1 Workforce:

- Number of employees
- Number of occasional workers
- Average number of employees
- Average number of employees (permanent contracts)
- Employees by region
- Employees by country
- Employees by contract and gender
- Employees by job category and gender
- Employees by age range
- Average “Bouygues group” tenure
- Number of people on work/study contracts at 31 December
- Number of interns at 31 December
- Number of non-employee workers

1.5.1.2 Recruitment:

- External recruitment by job category and gender
- External recruitment by job category, type of contract and gender
- Number of people on work/study contracts hosted during the year
- Number of internships hosted during the year

- Number of people formerly on work/study contracts hired during the year
- Number of former interns hired during the year

1.5.1.3 Departures:

- Number of external departures by type of contract
- External departures by job category and gender
- Number of external departures (permanent contracts) by reason
- Turnover
- Voluntary turnover

1.5.2 Workplace organisation

- Number of hours worked
- Employees asked to respond to a satisfaction survey
- Employees who have taken part in regular performance and career development reviews

1.5.3 Diversity, equity, inclusion

1.5.3.1 Gender balance:

- Managers by gender
- Women in senior positions (*cadres*)
- “High-flyer” women managers
- Women in Executive Committees
- Women on executive bodies (specific to each business segment)
- Women recruited (gender balance indicator specific to each business segment)
- Women managers in the operational functions
- Women in succession plans for grade 17 & above positions
- Share of employees outside France among “High-flyer **managers**”
- Raising awareness of diversity/gender balance

1.5.3.2 Disability:

- Percentage of employees with disabilities

1.5.4 Training and skills development

- Number of employees trained
- Number of training hours
- Average number of days training per employee and by gender
- Training by type

1.5.5 Remuneration

1.5.5.1 Living wage:

- Living wage

1.5.5.2 Gender pay gap:

- Gender pay gap

1.5.5.3 Pay ratio:

- Remuneration comparison

1.5.6 Health and safety

- Proportion of employees covered by a health and safety management system
- Number of employee deaths due to workplace accidents and occupational illnesses
- Number of recordable workplace accidents involving the undertaking's employees
- Rate of recordable workplace accidents involving the undertaking's employees
- Number of recordable occupational illnesses involving the undertaking's employees
- Number of days lost to workplace accidents and number of deaths due to workplace accidents, occupational illnesses and ill health

1.5.7 Collective bargaining and labour relations

- Collective bargaining agreements negotiated, including mandatory annual negotiations (NAO), by theme
- Share of employees covered by a collective bargaining agreement worldwide
- Share of employees covered by employee representatives in EEA countries

1.5.8 Specific indicators

- Indicator for monitoring Equans' commitments

Theme:	Workforce and movements
Title:	Number of employees
Last revised:	June 2024
Indicator category:	CSRD

Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Number of **registered** employees at year-end (workforce).

The indicator distinguishes figures for France, and outside France.

Employees are assigned to an age group according to their age on the last day of the reference calendar year.

The age groups are:

- Under 30,
- 30 to 39,
- 40 to 49,
- 50 to 59,
- 60 and over.

Expatriates governed by French law are counted as part of activities “outside France” in the sub-indicators that mention this term.

Occasional workers are not included in this indicator.

Theme:	Workforce and movements
Title:	Number of non-employee workers
Last revised:	June 2024
Indicator category:	CSRD
Disclosure requirement:	Characteristics of non-employee workers who are part of the undertaking's workforce
ESRS reference:	ESRS S1-7, 55a
Code:	S1-7_01
Audit:	Moderate assurance
Unit of measurement:	Number (workforce)
Sub-indicators:	Number of temporary workers, number of union workers (if provided by the trade union), number of interns (if considered non-employees), number of individual contractors or consultants, number of posted workers
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global scope for union workers, France scope for temporary workers and interns
Population:	non-employee workers in the workforce
Period covered:	31 December (calendar year for temporary workers)
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

The following are considered **non-employee workers** :

- workers employed by a temporary employment agency (temporary workers, annual FTE),
- union workers if made available by the union (workforce at end-December),
- interns (if considered non-employee workers under legislation, like they are in France) (workforce at end-December),
- individual contractors under direct contract with a Group undertaking, or freelancers,
- posted workers from another EU country.

Total number of annual temporary worker hours compared to the minimum number of hours worked annually under current legislation (e.g.: 1,607 hours for France).

Temporary worker hours are the hours billed by a temporary employment agency.

FY 2024: No data on individual contractors/consultants or on posted workers will be reported by the business segments.

Temporary staff and interns are reported only for the France scope.

COMPUTATION FORMULA

Annual number of temporary workers:

Σ Annual temporary worker hours/1,607

Number of union workers (if provided by the trade union):

Σ union workers made available by the trade union (workforce at end-December)

Number of interns (if considered as non-employees, as in France):

Σ interns (workforce at end-December)

Number of individual contractors or consultants:

Σ individual contractors or consultants (workforce at end-December)

Number of posted workers:

Code:	-
Audit:	Moderate assurance
Unit of measurement:	Number (workforce)
Sub-indicators:	Number of women Staff new hires, Number of men Staff new hires, Number of women Worker new hires, Number men Worker new hires
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Outside France
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Number of employees hired in the Group during the calendar year under consideration by gender and **job categories**. Excludes:

- **inter-business segment job mobility:** transfer of an employee from one business segment to another (e.g. an employee moves from Bouygues Construction to Bouygues Immobilier);
- **intra-business segment job mobility:** transfer of an employee within the same business segment (e.g. an employee changes entity within Bouygues Telecom);
- **takeovers:** new employees are brought in when an undertaking outside the Group is acquired;
- **changes of contract:** a change in employment contract that does not result in termination, such as the switch from a non-permanent to a permanent contract in the France scope.

The Staff and Worker categories are specific to the businesses outside France (they also cover expatriates governed by French law)

Occasional workers are not included in this indicator.

Theme:	Workforce and movements
Title:	Number of people formerly on work/study contracts hired during the year
Last revised:	June 2023
Indicator category:	Strategic indicator
Disclosure requirement:	-
ESRS reference:	-
Code:	-
Audit:	Moderate assurance
Unit of measurement:	Number (workforce)
Sub-indicators:	Number of people formerly on apprenticeship contracts hired during the year, Number of people formerly on professional training contracts hired during the year
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	France
Population:	Registered workforce. Permanent and non-permanent contracts
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Number of new recruits in the undertaking during the calendar year in question, who were formerly on an apprenticeship contract or professional training contract during the previous three calendar years.

- *Apprenticeship contract*: employment contract as defined by Article L. 621-1 et seq. of the French Labour Code.
- *Professional training contract*: employment contract as defined by Article L. 6325-1 et seq. of the French Labour Code.

COMPUTATION FORMULA

Σ **registered** employees on “conventional” permanent/non-permanent/worksite project contracts during the calendar year under consideration, and who have worked at least one day on an apprenticeship or professional training contract during the three calendar years prior to recruitment.

An employee who has two contracts during the calendar year under consideration will only be counted once.

Example: An employee is recruited on a permanent contract in October of the calendar year under consideration. If the employee was last on a work/study contract between 1 January two years prior and October of the calendar year under consideration, they will be included in the indicator. However, if the last work/study contract was in October three years prior to the calendar year under consideration, they will not be counted.

Title:	Number of external departures by type of contract
Last revised:	June 2024
Indicator category:	CSRD
Disclosure requirement:	Characteristics of the undertaking's employees
ESRS reference:	ESRS S1-6, 50c
Code:	S1-6_11
Audit:	Moderate assurance
Unit of measurement:	Number (workforce)
Sub-indicators:	Number of external permanent contract departures, number of external non-permanent contract departures, number of external non-guaranteed hours contract departures
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Number of external departures of employees who were part of the **registered** workforce during the year under consideration, Global scope, by **type of contract**. This indicator distinguishes figures in France, and outside France.

For Colas: ColasWay scope only.

Excludes:

- inter-business segment job mobility: transfer of an employee from one business segment to another (e.g. an employee moves from Bouygues Construction to Bouygues Immobilier);
- intra-business segment job mobility: transfer of an employee within the same business segment (e.g. an employee changes entity within Bouygues Telecom);
- divestments of companies: departure of employees when a company is divested;
- changes of contract: a change in employment contract that does not result in termination, such as the switch from a non-permanent to a permanent contract in the France scope.

Occasional workers are not included in this indicator.

For 2024, the following applies to the Calame scope at BYCN and to companies integrating ColasWay throughout the year: changes to the protocol result in changes to the configuration of the HRIS during the year. For the scopes mentioned above, the number of total departures by type of contract for the previous year will be regenerated on the basis of the number of total departures by type of contract at the end of the period.

Theme:	Workplace organisation
Title:	Number of hours worked
Last revised:	June 2023
Indicator category:	CSRD
Disclosure requirement:	Health and safety metrics
ESRS reference:	ESRS S1-14, 88c
Code:	-
Audit:	Reasonable assurance
Unit of measurement:	Number (workforce)
Sub-indicators:	Number of hours worked (France), Number of hours worked by occasional workers
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments or Health and Safety departments

DETAILED DESCRIPTION

The total number of hours worked:

- **Compagnons and Workers:** the sum of hours actually worked.
- **Staff employees:** hours worked taken into consideration can either be theoretical or actual depending on the country concerned; the number of annual hours theoretically worked varies according to the legal requirements of the country concerned.
- **ETAM (clerical, technical and supervisory staff) and Cadre (senior position) (France scope):** the sum of hours theoretically worked.
- **Occasional workers:** the total number of hours worked by occasional workers in the year.

Absences such as the following are excluded from hours worked:

- Paid leave.
- Sick leave.
- Furlough hours (temporary reduction in business activity with compensation arrangements).
- Bad weather hours.
- Time off work as a result of a workplace accident.
- Suspension of employment contracts (sabbatical leave, business creation leave, parental leave, training leave, career change leave, or similar arrangements outside France).

Interns (a student not in the registered workforce but who is on an internship within the undertaking) are excluded from this indicator.

The number of hours worked in France is also required as a sub-indicator, as well as for all TF1 occasional workers.

COMPUTATION FORMULA

Theme:	Workplace organisation
Title:	Employees asked to respond to a satisfaction survey
Last revised:	June 2024
Indicator category:	Strategic indicator
Disclosure requirement:	-
ESRS reference:	-
Code:	SOC-000-003
Audit:	Moderate assurance
Unit of measurement:	Percentage
Sub-indicators:	Permanent workforce covered by at least one satisfaction survey, Active permanent workforce at the survey date
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	France
Population:	Active workforce. Permanent contracts
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Percentage of permanent employees covered by a satisfaction survey as a proportion of the active permanent workforce.

- Permanent employees “asked to respond”: number of employees on a permanent contract whose opinions have been canvassed by means of a satisfaction survey.
- Satisfaction survey: questionnaire designed to assess employees’ satisfaction in their work or job. Examples: anonymous or personal questionnaire, in paper or on-line.
- Active workforce on permanent contracts: number of employees with permanent contracts in the undertaking. Employees whose contracts are suspended (parental leave, business creation leave, etc.) are excluded.

If no satisfaction survey has been completed during the reference calendar year, the results of the most recent survey are used. Only surveys dating back less than three years are taken into account.

COMPUTATION FORMULA

$(\sum \text{permanent employees covered by at least one satisfaction survey} / \sum \text{employees on a permanent employment contract at the survey date}) \times 100$

Title:	Employees who have taken part in regular performance and career development reviews
Last revised:	June 2024
Indicator category:	CSRD
Disclosure requirement:	Training and skills development metrics
ESRS reference:	ESRS S1-13, 83a
Code:	S1-13_02
Audit:	Moderate assurance
Unit of measurement:	Percentage
Sub-indicators:	For each of the following sub-indicators, a detail for women and a detail for men is expected: <i>Cadres</i> (senior positions) who have participated in regular performance and career development reviews, <i>cadres</i> (senior positions) eligible for regular performance and career development reviews, <i>ETAM</i> (clerical, technical and supervisory staff) who have participated in regular performance and career development reviews, <i>ETAM</i> (clerical, technical and supervisory staff) eligible for regular performance and career development reviews, <i>compagnons</i> (site workers) who have participated in regular performance and career development reviews, <i>compagnons</i> (site workers) eligible for regular performance and career development reviews, Staff who have participated in regular performance and career development reviews, Staff eligible for regular performance and career development reviews, Workers who have participated in regular performance and career development reviews, Workers eligible for regular performance and career development reviews
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Registered workforce. Permanent contracts
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

The total number of employees on **permanent** contracts who have received a regular performance and career development review during the year (e.g. a formal annual appraisal) as a percentage of the total number of employees on permanent contracts eligible for a regular performance and career development review.

The indicator includes employees bound to the undertaking by a permanent employment contract who are eligible for the appraisals carried out by business segments. In some business segments, eligible employees do not necessarily correspond to registered employees.

For BYCN, the human resources management (Successfactors) scope, excluding Calame. For Colas, employees of ColasWay only, excluding workers.

This indicator is split by gender at birth and by job category. (In France: *Cadres*, *ETAM*, *compagnons*. Outside France: Staff and Workers)

A regular performance review is defined as a review based on criteria known to the employee and his/her manager, undertaken with the employee's knowledge at least once a year. It may include an assessment by the employee's direct line manager, by peers or by a wider range of employees. The human resources department may also be involved.

Annual appraisal: Formal meeting between the employee and the person authorised to assess them.

Covers all appraisals that are completed during the year under consideration.

Only appraisals that actually took place are included in this indicator.

COMPUTATION FORMULA

$$\left(\frac{\sum \text{Permanent contract employees who have participated in regular performance and career development reviews}}{\sum \text{Permanent contract employees eligible for regular performance and career development reviews}} \right) \times 100$$

Title:	Managers by gender
Last revised:	June 2024
Indicator category:	CSRD
Disclosure requirement:	Diversity metrics
ESRS reference:	ESRS S1-9, 66a
Code:	S1-9_02
Audit:	Reasonable assurance
Unit of measurement:	Number and rate
Sub-indicators:	Managers by gender in France, Managers by gender outside France
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

At the Bouygues group, we draw an equivalence between our job category “Manager” and the “top management” category used in the CSRD.

The indicator shows the number of managers in the registered workforce in France and outside France by gender as a percentage of the number of managers in the registered workforce in France and outside France.

- A manager in France, and outside France, is:

Any employee in the HRIS with the following grades: "Department Head and above" for Bouygues Construction, TF1, Bouygues Telecom; "Deputy Manager and above" for Bouygues Immobilier; "Job level 70 and above" for Colas; "Grade 2C and above" for Equans.

- For the entities not registered in the HRIS:

- this is based on job title: “Head of Department”, “Department Head” and more senior grades; or
- on level of qualification/experience: “with a minimum of 5 years with senior staff exposure or responsibility”.

This indicator is also split by gender (women, men, other situations and not reported).

Title:	Women in senior positions (<i>cadres</i>)
Last revised:	June 2023
Indicator category:	Strategic indicator
Disclosure requirement:	-
ESRS reference:	-
Code:	-
Audit:	Reasonable assurance
Unit of measurement:	Percentage
Sub-indicators:	Women in senior positions (<i>cadre</i>) in the registered workforce in France, Employees in senior positions (<i>cadre</i>) in the registered workforce in France Women in senior positions in the registered workforce outside France, Employees in senior positions in the registered workforce outside France
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

The number of women in senior positions (*cadre*) in the registered workforce in France and outside France as a percentage of the number of senior position employees in the registered workforce in France and outside France.

- In France, *cadre* refers to an employee whose hierarchical position is defined as senior or higher in the HRIS.
- Outside France, a senior employee is defined:
 - o as an employee who has the equivalent of *cadre* job category;
 - o at Bouygues Construction, by referring to the international grading system;
 - o at Colas, as an employee who has job level "50 or above" in HRIS;
 - o at Equans, by referring to the equivalence criteria drawn with the Group grading system;
 - o for those entities outside the HRIS, as an employee who has an equivalent level of responsibility, academic qualification, experience and remuneration.

Expatriates governed by French law are counted in the sub-indicators that include the term "outside France".

COMPUTATION FORMULA

$$(\sum \text{women in senior positions (cadre) in France in the registered workforce} + \sum \text{women in senior positions outside France in the registered workforce}) / (\sum \text{employees in senior positions (cadre) in France in the registered workforce} + \sum \text{employees in senior positions outside France in the registered workforce}) \times 100$$

Sub-indicators:	Women "high-flyers" in department head or more senior grades in the registered workforce in France, "High-flyer" department heads or more senior grades in the registered workforce in France Women "high-flyer" managers in the registered workforce outside France, "High-flyer" managers in the registered workforce outside France
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

The number of "high-flyer" women managers in France and outside France in the registered workforce as a percentage of the number of "high-flyer" managers in France and outside France in the registered workforce. "High-flyer" managers are managers identified as High Potential in the "Nine Box" (the sum of "A3's", "B3's" and "A2's")

- A manager in France and outside France is:

Any employee in the HRIS with the following grades: "Department Head and above" for Bouygues Construction, TF1, Bouygues Telecom; "Deputy Manager and above" for Bouygues Immobilier; "Job level 70 and above" for Colas; "Grade 2C and above" for Equans.

- For the entities not registered in the HRIS:

- this is based on job title: "Head of Department", "Department Head" and more senior grades; or
- on level of qualification/experience: "with a minimum of 5 years with senior staff exposure or responsibility".

Cadre: a standard Group classification in France for all senior positions.

Department head or more senior grade: refers to positions with executive responsibility namely Department Head, Deputy Director, Director, Chief Executive.

Expatriates governed by French law are counted in the sub-indicators that include the term "outside France".

COMPUTATION FORMULA

$$\frac{(\sum \text{"High-flyer" women managers in France in the registered workforce} + \sum \text{"High-flyer" women managers outside France in the registered workforce})}{(\sum \text{"High-flyer" managers in France in the registered workforce} + \sum \text{"High-flyer" managers outside France in the registered workforce})} \times 100$$

Title:	Women on executive bodies (specific to each business segment)
Last revised:	June 2023
Indicator category:	Strategic indicator
Disclosure requirement:	-
ESRS reference:	-
Code:	-
Audit:	-
Unit of measurement:	Percentage
Sub-indicators:	Women on executive bodies (specific to each business segment), Registered workforce on executive bodies (specific to each business segment)
Consolidated:	No (each business segment has its own indicator definition)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

The number of women on the business segment executive bodies as a percentage of the total number of members of these executive bodies (excluding the CEOs of the business segments)

The scope of the executive bodies at each business segment is the following:

- **Bouygues Construction:** Women on the Management Committees of the “Civil Works” entities, “Bouygues Bâtiment International” and “Bouygues Bâtiment France” entities.
- **Bouygues Immobilier:** Women on executive bodies (excluding Executive Committees), which include Executive Committees’ directly subordinate management committees and their indirectly subordinate operational management committees in France and outside France
Employees who are members of more than one body only count once and non-employee members outside France are not counted.
- **Colas:** Women on the management committees* of five divisions with over 1,000 employees at the end of December. These are the Roads France, EMEA¹, Rail, Canada and United States divisions. The CEOs of these divisions are not included.
*These committees are: Executive committee for EMEA, Executive Committee for the Rail division, Executive Committee members for the Canada division, Executive Committee for the Roads France division, and Executive Committee for the US division.
- **Equans:** Women on the Coordination Committee (COCOR)
- **TF1:** Women on TF1’s General Management Committee
- **Bouygues Telecom:** Women on Bouygues Telecom’s Executive Committee and on RCBT’s Management Committee

COMPUTATION FORMULA

$$(\sum \text{Number of Women on specific executive bodies}) / (\sum \text{Total number of employees on specific executive bodies}) \times 100$$

¹ Europe, Middle East, Africa.

Scope:	Global
Population:	Registered workforce. All types of contracts (permanent , non-permanent and non-guaranteed hours)
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Percentage of women recruited within scopes specific to each business segment:

- **Bouygues Construction:** Percentage of women managers, **permanent** contracts recruited in operational functions. Operational functions are defined as all functions except support functions:
 - Purchasing,
 - Finance,
 - Human Resources,
 - Communication,
 - Legal Affairs,
 - Administration/PA.
 HR4U + Chorus scope, excluding Calame.
- **Bouygues Immobilier:** percentage of women managers recruited in the five functions that are the subject of particular attention:
 - Sales,
 - Development,
 - Engineering,
 - Programmes,
 - Management.

- **Colas:** percentage of women in senior positions (*cadre* in France, job level 50 or above outside France) recruited in the following six operational functions:
 - Operations/Projects (E)
 - Materials/Keystone (K)
 - Equipment (M)
 - Industries/Production (P)
 - Technique/R&D/ Laboratory (R)
 - Studies (U)
- **Equans:** percentage of women recruited in the following three functions:
 - Profit Center Owner,
 - Engineering,
 - Project Manager
 France, United Kingdom, Belgium and Netherlands scopes only.
- **TF1:** percentage of women (internal or external) recruited on permanent contracts in the following four functions:
 - Technology department
 - B2C department
 - Adtech department
 - Data department
- **Bouygues Telecom:** percentage of women in *cadre* (senior positions) recruited in technical professions (Network and IT). B2B excluded.

COMPUTATION FORMULA

Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Number of women managers in operational functions at 31 December, all contracts, Global scope (excluding Equans).

- A manager in France and outside France is:

Any employee in the HRIS with the following grades: "Department Head and above" for Bouygues Construction, TF1, Bouygues Telecom; "Deputy Manager and above" for Bouygues Immobilier; "Job level 70 and above" for Colas; "Grade 2C and above" for Equans.

- For the entities not registered in the HRIS:

- this is based on job title: "Head of Department", "Department Head" and more senior grades or
- on level of qualification/experience: "with a minimum of 5 years with senior staff exposure or responsibility".

The operational functions specific to each business segment are:

- **For Bouygues Construction, TF1, Bouygues Telecom**, operational functions are defined as all functions except support functions:
 - Purchasing,
 - Finance,
 - Human Resources,
 - Communication,
 - Legal Affairs,
 - Administration/PA.

HR4U + Chorus scope, excluding Calame

- **For Bouygues Immobilier**, these are the following eight operational functions:
 - Urban planning,
 - Sales,
 - Customer relations,
 - Development,
 - Engineering,
 - Programme,
 - Management,
 - Marketing.
- **For Colas**, percentage of women managers (grade 70 or above) in the following six operational functions:
 - Operations/Projects (E)
 - Materials/Keystone (K)
 - Equipment (M)
 - Industries/Production (P)
 - Technique/R&D/ Laboratory (R)
 - Studies (U)
- **For Equans**, operational functions are defined as all functions except support functions:
 - Functional assistance,
 - Communication,
 - IT support, information systems & internal cybersecurity,
 - Finance / Taxation / Insurance,
 - Legal, ethics and compliance,
 - Quality, health, safety, security, environment,
 - Research & development,
 - Human resources,
 - General services & real estate,
 - Procurement & purchasing,
 - Strategy, audit and internal control

France, United Kingdom, Belgium and Netherlands scopes only

Disclosure requirement:	-
ESRS reference:	-
Code:	-
Audit:	-
Unit of measurement:	Percentage
Sub-indicators:	Women in succession plans for grade 17 & above positions, men in succession plans for grade 17 & above positions
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Number of women in succession plans for grade 17 & above positions at 31 December, all contracts, Global scope.

For Colas: ColasWay scope only.

The grading used to determine grades 17 to 24 is the BYSA grading.

All succession plans for grades 17 and above are included, regardless of the timing of the succession (immediate, 1 to 3 years, or over 3 years).

A person (men or women) may be counted several times if he or she appears in the succession plans of several different employees.

On the other hand, a person (men or women) who appears several times in the succession plan of the same employee will only be counted once.

COMPUTATION FORMULA

$(\sum \text{Women in grade 17 \& above succession plans} / \text{Total women and men in grade 17 \& above succession plans}) \times 100$

Title:	Share of employees outside France among “High-flyer managers”
Last revised:	June 2024
Indicator category:	Strategic indicator
Disclosure requirement:	-
ESRS reference:	-
Code:	-
Audit:	Reasonable assurance
Unit of measurement:	Percentage
Sub-indicators:	Number of “High-flyer” managers outside France, total number of “High-flyer” managers
Consolidated:	No (Bouygues Construction)
Scope:	Global
Population:	Registered workforce. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Number of “High-flyer” managers outside France as a percentage of the total number of “High-flyer” managers in the registered workforce in France and outside France.

Only the main nationality is taken into account. Employees of the human resources management (Successfactors) scope, excluding Calame.

“High-flyer” managers are managers identified as High Potential in the “Nine Box” (the sum of “A3’s”, “B3’s” and “A2’s”)

- A manager in France and outside France is:
Any employee who is part of the HRIS, such as "Department Head and above" for Bouygues Construction.

- For the entities not registered in the HRIS:
- this is based on job title: “Head of Department”, “Department Head” and more senior grades; or
- on level of qualification/experience: “with a minimum of 5 years with senior staff exposure or responsibility”.

Department Head or more senior grade: refers to positions with executive responsibility namely Department Head, Deputy Director, Director, Chief Executive.

COMPUTATION FORMULA

$$\left(\frac{\sum \text{“High-flyer” managers outside France in the registered workforce}}{\sum \text{“High-flyer” managers in France in the registered workforce} + \sum \text{“High-flyer” managers outside France in the registered workforce}} \right) \times 100$$

Code:	S1-10_01, S1-10_02, S1-10_03
Audit:	Moderate assurance
Unit of measurement:	Percentage
Sub-indicators:	Total number of employees not receiving a living wage (by country), total number of employees included in living wage analysis (by country)
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	France, United Kingdom, Belgium, Netherlands
Population:	France: Active workforce. permanent and non-permanent contracts. Interns, people on work/study contracts and expatriates are excluded. Outside France: Active workforce. All types of (permanent, non-permanent and non-guaranteed hours contracts). Excluding expatriates.
Period covered:	Workforce at 31 December
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

The undertaking states whether all employees active at 31 December are receiving a living wage; information provided per country.

Employees included in the pay gap analysis:

France: Active workforce. **Permanent** and **non-permanent** contracts. Interns, people on work/study contracts and employees who no longer receive remuneration from the undertaking are excluded.

Outside France: Active workforce. All types of (**permanent, non-permanent** and **non-guaranteed hours** contracts). Employees on unpaid long-term leave are excluded.

Expatriates and occasional workers are also excluded from the group under consideration.

Composition of observed remuneration:

Theoretical gross fixed annual remuneration.

The basic salary is increased by fixed supplements guaranteed to all employees: tenure bonus, a thirteen month's pay, vacation bonus, minimum wage adjustments.

Part-time remuneration is recalculated on a full-time equivalent (FTE) basis.

In order to determine whether all employees receive a living wage, gross fixed annual remuneration is compared with the FairWage database. FairWage lists the minimum monthly wages in force in each country, as well as an annual minimum wage for 12 months.

The minimum wage in Mayotte is taken into account for this specific population.

The total number of employees included in the analysis of the living wage must be provided by the business segments for Group consolidation purposes, even if no employee is found not to be receiving a living wage in a country survey.

Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Pay gap between women and men.

This is the difference in average remuneration of men and women employees, expressed as a percentage of the average remuneration of men employees.

This measurement of the pay gap is carried out for each country observed, on the basis of theoretical gross annual remuneration.

Composition of observed remuneration:

Annual theoretical fixed gross remuneration.

The basic salary is increased by any fixed supplements guaranteed to all employees: tenure bonus, a thirteen month's pay, vacation bonus, minimum wage adjustments.

Part-time remuneration is recalculated on a full-time equivalent (FTE) basis.

Employees included in the pay gap analysis:

France: Active workforce. **Permanent** and **non-permanent** contracts. Interns, people on work/study contracts and employees on unpaid long-term leave are excluded.

Outside France: Active workforce. All types of contracts (**permanent, non-permanent** and **non-guaranteed hours**). Employees on long-term unpaid leave are excluded.

Expatriates and occasional workers are also excluded from the group under consideration.

COMPUTATION FORMULA

[(Average gross remuneration for men employees - average gross remuneration for women employees)/Average gross remuneration for men employees] x 100

Period covered:	-
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

The total annual remuneration of the highest-paid person compared with the median total annual remuneration of all employees (excluding the highest-paid person).

This ratio is calculated for each country where data is collected.

This is a list of all the employees concerned, but anonymised, with the only information being the country of employment, the profession of the employee, the job category, and the remuneration details relating to the scope observed.

For the France scope:

Employees included in the analysis of the remuneration comparison:

Employees present from 1 January to 31 December, on permanent and non-permanent contracts, including work/study contracts. Occasional workers are not included.

Composition of observed remuneration:

Part-time remuneration is recalculated on a full-time equivalent (FTE) basis.

All the remuneration components collected are defined as follows:

- **Gross remuneration:** Gross annual remuneration paid in the year under consideration (If the employee is part-time, he or she must be recalculated as full-time).
This does not include long-distance travel allowances, severance payments or non-competition payments.
- **Compulsory/voluntary profit-sharing:** amounts allocated in the year under consideration in respect of the previous year.
- **Employer top-up contributions to company savings schemes/collective retirement savings schemes (PEE/PERCOL):** Total employer top-up contributions in year under consideration to company savings schemes/collective retirement savings schemes.

- **Stock options:** Only those stock options that have been actually awarded after their two-year vesting period. These are therefore stock options of the two years prior to the year under consideration, which are valued at their IFRS value.
- **Free shares:** Free shares allocated in the year under consideration (value at the time of allocation).
- **Remuneration for serving as a director:** Remuneration granted in the year under consideration for Bouygues SA and/or the Group's business segments/subsidiaries in respect of the year under consideration.
- **Benefits in kind:** Total value of benefits in kind (company car, driver, PA, etc.) for the year under consideration.

For the Outside France scope:

Employees taken included in the analysis of the remuneration ratio: registered employees, all types of contracts (**permanent, non-permanent and non-guaranteed hours**)

Composition of observed remuneration:

Theoretical gross fixed annual remuneration.

Part-time remuneration is recalculated on a full-time equivalent (FTE) basis.

COMPUTATION FORMULA

Total annual remuneration for the highest paid person in the undertaking/Median total annual remuneration (excluding the highest paid person in the undertaking)

Period covered:	31 December
Contributors:	Business segment central HRIS departments or Health and Safety departments

DETAILED DESCRIPTION

Occupational Safety and Health (OSH) Management System coverage rate of the undertaking's employees

Two numbers are required:

A numerator corresponding to the sum of:

- the employees of entities covered by a certified health and safety management system: ISO 45001, MASE (Company Safety Improvement Manual), or other;
- employees of entities covered by a non-certified auditable health and safety management system; and
- employees of entities in countries where a health and safety management system is required by law.

And a denominator corresponding to the total number of employees in the undertaking.

Only **registered** employees present in the undertaking at 31 December are covered by this analysis.

COMPUTATION FORMULA

$(\sum \text{employees covered by a health and safety management system} / \sum \text{employees}) \times 100$

Title:	Number of employee deaths due to workplace accidents and occupational illnesses
Last revised:	June 2024
Indicator category:	CSRD
Disclosure requirement:	Health and safety metrics
ESRS reference:	ESRS S1-14, 88b
Code:	S1-14_02, S1-14_03
Audit:	Moderate assurance (reasonable assurance only for "number of deaths due to workplace accidents (Employees)")
Unit of measurement:	Number
Sub-indicators:	Number of deaths due to a workplace accident (Employees), number of deaths due to a workplace accident (Non-employees), number of deaths due to an occupational illness (Employees), number of deaths due to a workplace accident (Occasional workers), number of deaths due to an occupational illness (Occasional workers)
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	Global
Population:	Employees (All types of contracts: permanent , non-permanent , non-guaranteed hours) and non-employee workers .
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments or Health and Safety departments

DETAILED DESCRIPTION

Number of deaths due to:

- Fatal **workplace accidents**, namely those which result in the death, regardless of how long after the accident the death occurs, involving the undertaking's employees or non-employees,
- Or to recognised and recordable **occupational illness** of an employee of the undertaking.

A death must be recorded in the year under consideration even if the accident occurred in a previous year.

Fatal accidents whose initial cause is **faintness** that is non-work-related are not counted as fatal workplace accidents.

The number of deaths of occasional workers is counted separately.

COMPUTATION FORMULA

Σ deaths resulting from workplace accidents and occupational illnesses

Scope:	Global
Population:	Employees. All types of contracts (permanent, non-permanent and non-guaranteed hours)
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments or Health and Safety departments

DETAILED DESCRIPTION

Number of calendar days during which **employees** who are victims of a **workplace accidents**, an **occupational illness**, a death due to a workplace accident or a death due to an occupational illness were unable to work.

For a **workplace accidents** the calculation of the number of days lost starts on the day after the accident (the accident having been declared and deemed genuine in terms of date and time) and ends on the last day of absence. Days lost resulting from a relapse of a workplace accident are also taken into account. However, these days are not taken into account if the original accident took place in another undertaking, and if these days occur more than three years after the original accident.

This includes days absent during the year even if the accident occurred in the previous calendar year.

For an **occupational illness**: number of days off work prescribed by a doctor for an employee who has a recognised occupational illness.

An immediate death results in 0 days lost. For a death occurring X days after the workplace accident or an absence due to an occupational illness, X days will be lost

Do not count deaths due to non-work-related ill health.

FY 2024: publish the indicator for the number of days lost due to workplace accidents and work-related deaths, but not including days lost due to occupational illnesses

Theme:	Collective bargaining and labour relations
Title:	Collective bargaining agreements negotiated, including mandatory annual negotiations (NAO), by theme
Last revised:	June 2023
Indicator category:	Strategic indicator
Disclosure requirement:	-
ESRS reference:	-
Code:	SOC-225-001
Audit:	Moderate assurance
Unit of measurement:	Number
Sub-indicators:	-
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	France
Population:	-
Period covered:	1 January to 31 December
Contributors:	Business segment central HRIS departments, Business segment labour relations departments

DETAILED DESCRIPTION

The indicator shows the split by theme of agreements negotiated with employee representatives during the calendar year under consideration.

- Collective bargaining agreements negotiated: These are company, entity or group agreements negotiated between employee representatives and the employer. Examples: agreements on diversity, equal opportunities, psychosocial risks, skills planning (GPEC), etc.
- Mandatory annual negotiations (NAO): These are negotiations initiated each year by the employer in compliance with legal requirements.
- Themes:
 - Labour relations/Right to vote/Right to unionise
 - Remuneration/Employee benefits/Collective bargaining arrangements
 - Working hours and workplace organisation;
 - Quality of life at work/Diversity and gender balance of professions;
 - Jobs and career development;
 - Other.

The indicator covers agreements and mandatory annual negotiations for which negotiations began during the period under consideration.

An agreement can be included under one theme only.

Title:	Share of employees covered by a collective bargaining agreement worldwide
Last revised:	June 2024
Indicator category:	CSRD
Disclosure requirement:	Coverage of collective bargaining and labour relations
ESRS reference:	ESRS S1-8, 60a, b and c
Code:	S1-8_01, S1-8_02, S1-8_03
Audit:	Moderate assurance
Unit of measurement:	Percentage
Sub-indicators:	Number of employees covered by a collective agreement in France
Consolidated:	Yes (Holding company and other, Bouygues Construction, Colas, Equans, Bouygues Immobilier, TF1, Bouygues Telecom)
Scope:	France
Population:	Registered workforce, all contracts
Period covered:	31 December
Contributors:	Business segment central HRIS departments, Business segment labour relations departments

DETAILED DESCRIPTION

Overall share of the registered workforce covered by a collective bargaining agreement worldwide at the end of the period.

This percentage is broken down into three scopes: France, the European Economic Area, and the rest of the world outside the European Economic Area.

Details must be given for each country in the European Economic Area (EEA) where the undertaking employs a large workforce (i.e. at least 50 employees representing at least 10% of its total workforce). For the Bouygues group, this corresponds to two countries: France and the United Kingdom.

Employees who are part of the undertaking's workforce and who are covered by collective bargaining agreements are those to whom the undertaking is obliged to apply the collective agreement.

Employees in the undertaking's workforce who are covered by more than one collective bargaining agreement are counted only once.

FY 2024: Only data for the France scope will be disclosed.

COMPUTATION FORMULA

Theme:	Specific indicators
Title:	Indicator for monitoring Equans' commitments
Last revised:	June 2024
Indicator category:	Strategic indicator
Disclosure requirement:	-
ESRS reference:	-
Code:	-
Audit:	Reasonable assurance
Unit of measurement:	Remarks
Sub-indicators:	-
Consolidated:	No (Equans only)
Scope:	Global
Population:	Registered workforce, all contracts
Period covered:	October 2022 to December 2024
Contributors:	Business segment central HRIS departments

DETAILED DESCRIPTION

Monitoring of one of the 10 human resources commitments made by the Bouygues group when it acquired Equans.

Human resources commitment No. 9 is as follows:

- Freezing of the scope of consolidation for 36 months (from the closing date of the acquisition of Equans): no closure, transfer or divestment of Equans' European activities representing over 10% of European sales, or of activities outside Europe representing over 10% of sales outside Europe

These sales figures refer to Equans' sales for the 12 months preceding 30 June 2021.

Although this commitment theoretically expires in October 2025, it will be reviewed at a milestone set at 31 December 2024.

Appendix 2 - Reasons for departure (ESRS S1 social reporting)

Terminations of contract for the following reasons are counted as departures for the purposes of calculating turnover:

VOLUNTARY DEPARTURE:

- Resignation,
- Termination of the trial period at the employee's initiative

DEPARTURE AT THE EMPLOYER'S INITIATIVE:

- Negotiated termination,
- Dismissal (personal, economic, end of worksite project, other reason),
- Other termination for economic reasons (used in particular in the case of a redundancy plan)
- Termination of the trial period at the employer's initiative

END-OF-CAREER DEPARTURE:

- Retirement (retirement, early retirement, compulsory retirement)

OTHER:

- Death,
- Incapacity

Annex 3 - Health and safety: Group definitions of a workplace accident, faintness and occupational illness for CSRD reporting purposes

Workplace accidents

A sudden event causing physical or psychological injury to the employee, as a result of or in connection with his or her work, at the workplace or during a business trip, whatever the cause;

The following are considered workplace accidents and are included in Bouygues' reporting:

- Accidents occurring while teleworking (at home or while remote-working in a third place) unless they are domestic accidents,
- Accidents which are not dated with certainty, or which are recorded imprecisely and some time after the event by the victim (uncertainty of facts should be expressed where appropriate),
- Any accident that occurs during a team-building activity organised by the undertaking (seminar, sports competition, etc.),
- An accident occurring during a break, or while travelling to take a break or to return to work, on the premises of the workplace, in an area over which the employer has control and supervision,
- An accident occurring on a car park or access road belonging to or managed by the employer, whilst travelling between the home/a catering facility to the workplace, is deemed to be an accident at work and not a commuting accident,
- Accidents resulting in faintness (e.g. an injury leading to faintness or inhalation of toxic products leading to fainting, etc.),
- Faintness related to working conditions,
- Events caused by third parties: assaults, vehicle accidents.

The following are not considered workplace accidents in Bouygues' reporting:

- An accident to which an employee falls victim when on the way to or from the workplace (when the journey is not related to an employee's professional duties and when the transport has not been organised by the undertaking)
- Any event that expatriate, posted or long-distance assignment employees may be the victim of outside working hours and at their usual place of employment,
- Any accident occurring during an apprentice's or work/study student's school hours (it is considered a workplace accident and reported by the employer but not counted in the figures),
- Any accident occurring in the course of an activity not organised by the company, in which the employee willingly participates on an individual basis (e.g.: sports club, a charity run, etc.),
- Bites from wild animals (not pets) or insect stings,
- A suicidal act or self-inflicted injury(ies) (the cause of which is not work-related following a formal investigation),
- Workplace accidents that the regulator or body responsible for investigating workplace accidents has dismissed are deemed to have been rejected and may be withdrawn from the reporting providing that a letter/email stating that no further action will be taken has been received.,
- A heart attack suffered by an employee in the workplace but which is not work-related,
- An epileptic seizure suffered by an employee in the workplace but which is not work-related,

Faintness

Faintness is a state of discomfort of varying degrees that can range from a mild ailment to acute pain that can:

- result in a blackout or loss of consciousness.
- hamper a person's ability to respond and/or move and/or result in unusual behaviour.

Occupational illnesses are not regarded as workplace accidents.

Occupational illness

Illness recognised as resulting from occupational exposure to conditions or substances that are harmful to health. These are occupational illnesses notified to the undertaking (letter of final recognition of the illness sent to the undertaking) or identified by the undertaking through medical surveillance during the period under consideration.

Occupational illnesses can include acute, recurrent and chronic ill health caused or exacerbated by working conditions or practices. These include musculoskeletal disorders, skin and respiratory diseases, malignant tumours, illnesses caused by physical factors (such as noise-induced hearing loss or vibration-induced illnesses) and mental illnesses (such as anxiety or post-traumatic stress). The undertaking must record cases of occupational illnesses listed in the ILO's list of occupational diseases (as a minimum), or in the regulatory list of each country in which it operates if this is more comprehensive.

The ILO list of occupational diseases can be consulted on the official ILO website: [Recommendation R194 - List of Occupational Diseases Recommendation, 2002 \(No. 194\) \(ilo.org\)](#)

Recognition of an occupational illness: For an illness to be recognised as work-related, it must be considered a direct result of the individual's exposure to specific risks inherent in his or her working environment, and not to factors or activities outside that environment. The criteria for recognising occupational diseases may vary from one country to another, depending on national regulations and lists of recognised occupational diseases. In France, the employee must report the occupational illness to the CPAM (public health insurance scheme), which must approve the request and inform the undertaking.

Mental illnesses are considered work-related if they have been notified voluntarily by the person concerned and if a licensed health professional with appropriate training and experience certifies that the illness is work-related.

Ill health resulting, for example, from smoking, drug use, alcohol abuse, physical inactivity, unhealthy diets and psychosocial factors unrelated to work are not considered to be work-related.
